DETAILED ACTION

Information Disclosure Statement

The Information Disclosure Statements filed on 24 June 2003, and 07 February 2005 have been entered and the reference(s) considered by the examiner.

Allowable Subject Matter

Claims 1-12 are allowable subject matter. The following is a statement of reasons for indication of allowable subject matter: the prior art of record, taken alone or in combination, fails to disclose or render obvious a method for determining the partial pressure of oxygen in a glass material that comprises measuring of the optical transmission of the glass material using many different wavelengths of light for detection of Iron (II) and Iron (III) content, finding the extinction coefficient, and converting them into a ratio proportional of the partial pressure of oxygen in the glass material, which then leads to a method of quantifying a change in operating conditions for productions, in combination with the rest of the limitations of the claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
